PROFILE

Final-year Industrial Engineering student at with strong interests in manufacturing systems, process improvement, quality engineering, operations research, and sustainable engineering solutions. Demonstrated leadership experience in student governance, research projects, and community development initiatives. Skilled in analytical problem-solving, project management, and technical communication.

EDUCATION

BSc. Industrial Engineering

Expected September 2026

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

Relevant Courses: Artificial Intelligent 150, Computer-Aided Design and Manufacturing, Application of Computer Graphics, Quality Assurance, Reliability Engineering, Advanced Manufacturing Technology, Engineering Work Study, Ethics, Contract & Product Liability Law, Computer Programming, Mechanism Synthesis and Analysis, Process planning Systems, Project Management, Discrete Event Simulation, Operations Research, Logistics and Supply Chain Management.

W.A.S.S.C.E (Electricals).

September 2017 – September 2020

Ada Senior High Technical, Greater Accra, Ghana

WORK EXPERIENCE

Intern, Recycle Up Ghana

September 2023 – December 2023

- Assisted in electronic waste management and recycling activities.
- Supported aquaponics system development and maintenance.
- Participated in sustainability-focused engineering initiatives.

Intern, Innovate, Make and Have Ours- IMHO

15th October 2025 – 7th November 2025

- Contributed to research and development activities for a Hybrid LPG-Charcoal Cooking System.
- Assisted in prototype development, testing, and performance evaluation.
- Collaborated with multidisciplinary teams to improve product efficiency.

PROJECTS/RESEARCH EXPERIENCE

Creating and Implementing Sustainable Waste Management Systems in Anyamam Community to Reduce Environmental and Public Health Risks (Engineering in Society Research Project).

PROFESSIONAL TRAINING/ CERTIFICATION

Cybersecurity and Digital Forensics

September 2023

Transformation Leadership & Governance Seminar

18th February 2023

Transformation Leadership & Governance Seminar

23rd July 2023

Transformation Leadership & Governance Seminar

3rd February 2024

Transformation Leadership & Governance Seminar

8th June 2024

Transformation Leadership & Governance Seminar

18 January 2025

Transformation Leadership & Governance Seminar

22nd May 2025

AI 150 Fundamentals of Responsible Artificial Intelligence

11th July 2026

LEADERSHIP EXPERIENCE

President, Ada Students' Union, KNUST

2025-2026

- Led initiatives promoting student welfare and community development.
- Coordinated academic and social support programs for students.

Head of Web Development, Naa-Wuni Vela shea butter

2025-Present

- Lead website development and maintenance activities for the project.
- Support digital security and web administration.

Youth Assistant Secretary, Victory Baptist Church, Anyamam-Ada

2017-Present

- Maintain youth records and documentation.

VOLUNTARY/EXTRA-CURRICULAR ACTIVITY

Wikipedia Volunteer, KNUST Wiki Hub

2025 – Present

- Publishes articles
- Edits articles

Participant, Mastercard Foundation–KNUST Community Engagement Projects

November 2024

- Helped to teach 20 young students how to build an Electrical Wooden Extension Board

Mastercard Foundation-KNUST Community Engagement project

December 2023

- Trained two young men in television satellite installation

SKILLS AND ABILITIES

- Proficiency in Microsoft Excel, Google Sheets, Google Docs, Google Chat
- Proficiency in AutoCAD, SOLIDWORKS and NX-SIEMEN
- Beginner in Python Programming, Machine Learning, and STATA
- Strong technical and problem-solving skills

Languages-Fluent in English and Dangme, Beginner in Twi and Ewe
